

NEVA MASQUERADE [NEM] (Standard Source: FIFe 2015)

General

The Neva Masquerade is the pointed variety of the Siberian. The overall impression of the Neva Masquerade is of a medium to large cat of robust build with rounded contours to the torso and head; a 'bulldog' stance suggested by its strong chest and a dense semi-long all-weather coat. The slightly flatter upper eyelid affords a unique expression to the breed.

- Head:** Shape a little bit longer than broad, softly rounded, massive. Forehead broad, just slightly rounded. Cheekbones well developed, high set. Nose medium length, board, in profile shows a slight indentation, but without stop. Chin slightly slanting back, in profile creating a curve from the upper line of the nose.
- Ears:** Medium size, well open at the base, tips are rounded, with well-developed furnishings [horizontal] and tufts [vertical]. Ear set so that there is good width between, and tilting slightly forward.
- Eyes:** Large slightly oval shaped. Set slightly oblique and widely apart.
- Body:** Structure well boned and muscled, powerful neck, broad chest, body in proportion to create a rectangular appearance.
- Legs and Feet:** Medium high, to form a rectangle with the body, strong. Large round paws, well tufted between toes.
- Tail:** Medium length, thick, with rounded tip. Covered on all sides by dense hair with no hairs trailing down.
- Coat:** Semi-long, well developed, very dense, undercoat not lying flat, overcoat water repellent, slightly hard to touch. Summer coat is distinctly shorter than the winter coat. The winter coat shows a well-developed shirtfront, full frill and knickerbockers.

For colour and patterns recognised refer to the descriptions below.

- Remarks:** Females generally smaller than males.
- Faults:** Too small and finely built cats. Head long and narrow; straight profile, too round head (Persian type). Ears too large or too high set. Roundeyes. Legs too long or too thin. Tail too short. Coat too fine or silky; lying flat; lack of coat (except in summer).
