

## **BALINESE [BAL] (Standard Source: FIFe 1987)**

### **General**

The ideal Balinese is a svelte, dainty cat with long tapering lines, very lithe and muscular; in excellent physical condition. The coat is medium long and silky, slightly longer around the neck and long on the tail to form a brush or plume. Body, points, and eye colour conform in all respects to the comparable Siamese varieties; the only difference is in hair length.

- Tail** Bone structure long, thin and tapering to a point. Hair long and spreading out to form a plume.
- Coat** Medium long over the body, longer around the neck and on the tail to form a plume. Fine and silky texture, without any undercoat.

### **SCALE OF POINTS**

Body, legs and tail	25 points
