

## **MUNCHKIN** (*Longhair [MUL]*) (*Shorthair [MUS]*) (*Standard Source CCA 2019*)

### **General**

The Munchkin is a medium sized cat, well-muscled, with strong distinctive short legs. This is the result of a spontaneous autosomal dominant mutation; shortening the long bones in the legs. The short legs do not hamper mobility or survival ability. Munchkins are outgoing, intelligent and respond well to handling. They are accepted in both long and short coat lengths and must not resemble any recognised breed. Males are generally larger than females.

**Head:** Modified wedge with rounded contours, medium in size and in proportion to the body. Profile has a gentle rise from bridge of nose, showing a slight indentation. Cheeks well rounded and broader in males. Nose medium length, with a gentle curve and is set below the eye line. In profile, there is a slight indentation, but not a break or stop. Jaw strong and gently rounded. Chin firm and rounded and in a vertical line with tip of nose. Neck medium sized, and firmly muscled, especially in males, in balance with the body and blending smoothly into the shoulders.

**Ears:** Medium in size, broad at the base, tapering to a slightly rounded tip, placed as much on the top of the head as on the side. Well-furnished on longhair.

**Eyes:** Almost rounded, in a slightly oblique setting and well apart to give an open alert expression.

**Body:** Medium sized and medium long in length. The muscular torso has a well-rounded chest, depth of flank and firm hips. The shoulder blades may appear higher but should not be prominent. Back is straight and will show a slight rise from shoulders to rump. Hindquarters are firm and straight when viewed from behind. The cat when viewed from above has head, shoulders and hips of nearly equal width.

**Legs and Feet:** Short, with upper and lower forelegs equal in length. Elbows appear to be higher on body than other cats because of the shorter legs and should lie close to ribcage and not bow outward. They should show good forearm muscle (this may give the illusion of bowing on well-muscled cats, due to the solid muscle development of the triceps and biceps). Bowing should be gauged from the inside forearms. Slight bowing is allowable especially in large mature males. Thigh and lower leg are approximately equal in length moderately angulated at knee and hock when at rest. Back legs are slightly longer than the front legs. Paws round and firm, squarely placed, not pointing excessively in or outward.

**Tail:** Medium thick, tapering to a rounded tip with length in proportion to the body, set high and carried erect.

**Coat:** **Shorthair:** The texture is resilient, plush, dense and of medium texture. An all-weather coat with natural protective appearance.

**Longhair:** A semi-longhair coat of moderate density and silky texture. It has a ruff, britches and a full flowing tail plume.

*For colour and patterns recognised refer to the descriptions below.*

**Remarks:** ~

**Faults:** Cow hocks. Excessive bowing (front legs). Foreign type or fine boning. Extreme nose break or excessively long nose. Excessive cobbliness. Any resemblance to an established recognised breed.

**Withhold**

**Challenge:** Sway back. Excessive dip behind the shoulder (lordosis).

**Disqualify:** ~

## SCALE OF POINTS

Head:	<i>including size &amp; shape of eyes</i>	30 points
Ears:		~ points
Eyes:		~ points
Body:	<i>including torso, neck, tail</i>	30 points
Legs and Feet:		20 points
Tail:		~ points
Coat:	<i>texture, colour &amp; pattern</i>	15 points
Colour:		~ points
Condition:	<i>&amp; balance</i>	5 points
		<hr/>
		<b>100 points</b>

## COLOURS AND PATTERNS RECOGNISED

### General Description

**Eye Colour:** All colours allowed, regardless of coat colour.

**Coat Colour:** All colours allowed [except amber] allowed including with white; any amount of white is allowed, ie. blaze, locket, white on chest/belly/paws etc.

**Coat Pattern:** All patterns including Karpati allowed.

**Nose Leather:** In accordance with coat colour, outlined in agouti varieties.

**Paw Pads:** In accordance with coat colour.

**Remarks:** For judging purposes:

- (a) Varieties are divided into Agouti, Agouti & White, Non-agouti and Non-agouti & White (ie in each group a certificate is awarded).
- (b) White cats of any eye colour to compete in one challenge class.

**Faults:** ~

**Withhold**

**Challenge:** ~

**Disqualify:** ~
